- We implemented the candidate quality survey in January of 2008. We experienced some challenges with capturing the data in e-recruiting, but have been able to manually calculate the data.

- To increase the return rate of the candidate quality survey, the HR office will notify the Assistant Director whenever the candidate quality survey is not returned by the hiring supervisor.
- The HR office will provide the notification 15 days after the survey has been sent to the supervisor.

Overall average: 3.8 4.1 Number of survey responses: 201 181

# Analysis:

- We continuously use the employee survey data to help us focus on areas we can improve as an organization.
- We used the results of the last survey, specifically Q12, to drive the development of our division performance measures. We now have division measures posted on the intranet that are reviewed on a quarterly basis.
- We have also developed new communication avenues, including an internal blog and a monthly Director's message that goes to all staff to keep staff informed of new developments and accomplishments.
- The Performance Management Team is helping us integrate the feedback we received from the Washington State Quality Award assessment into our organization and operational processes.

# **Action Steps:**

- The 2009 survey is being conducted during the month of October. Results are expected back by the end of the calendar year.
- Review the employee survey results with the Senior Management Team and the Performance Management Team and develop an action plan.
